ITS-RK110DT/RK115DT/RK125DT Dual Technology Motion Detector

The Dual Technology (Infrared and Microwave) Motion Detectors have the features of intelligent control, microprocessor, top view and elegant design which are specially suitable for luxurious residential environments.

By adopting infrared and microwave simultaneously and adopting microprocessor for digital signal processing, temperature compensation, anti-electromagnetic technology, and special pigmented lenses for stronger resistibility to white light, the false alarm problem has basically been settled.

RK110DT Coverage is 10m

RK115DT Coverage is 12m

RK125DT Coverage is 25M

Main Features

- Dual IR and MW Technology
- Microprocessor Design
- True Temperature Compensation
- Microwave Range is Adjustable
- Dual Polarity Pulse Count is Adjustable
- Resist Interference of white Light
- Top View Window and Creep Zone
- Power Consumption is Low
- High RFI Immunity for False Alarm Prevention (30V/m - 1GHz)
- Professional Optical Pigmented Lenses
- Installed on Wall & Ceiling/Corner Mounting
- ITS-RA93 Swivel Brackets is Available
- Resist Fluorescent Interference
- Memory and Form-C Relay
- Smart and Elegant Design is an Ideal Selection for Luxurious Residential Installations
